

# Here is a list of websites for this webinar:

This Google Sites page details the steps to **creating a rubric** using Google Forms and Google Sheets:

<https://sites.google.com/a/brandeis.edu/googlesitesrubric/>

This **Google Sites page** details the steps to

<https://sites.google.com/a/brandeis.edu/googlesitesfaq/>

This Website details how to find, use, and set **permissions** for **Google Drive** and folders:

<http://jenniferlivengood.com/googleapps/appspermissions.html>

This is the **Google Site demo** for the webinar:

<https://sites.google.com/a/brandeis.edu/googleappswebinar/>

## Iframe Code:

```
<p>  
<iframe src="https://sites.google.com/a/brandeis.edu/week1/" height="6000"  
width="100%"></iframe>  
</p>
```

## How to get data from a Google Sheet into a different Google Sheet

In the Google Sheet where you want the data to be transferred to:

=importrange("website of sheet containing the data", "cell:cell")

Want to take horizontal data and make it show up vertically:

=transpose(importrange("website of sheet containing the data", "cell:cell"))
